

BUMPIX180

BUMPIX Extension Kit – 2 × 1.1 m, 1 x 180° Post + Set of 3 Barriers + 4 Fixings

High-performance polyurethane safety barrier designed to secure traffic areas, protect infrastructure, and separate pedestrian and vehicle traffic. Highly impact-resistant, it absorbs impacts without breaking and immediately returns to its original shape. It offers quick installation with minimal maintenance. This range is always supplied with the appropriate fixings to ensure compliant installation; professional installation is strongly recommended.
