

Technical sheet

RAMP200

Aluminum foldable ramp - Max load 500 Kg/ramp - Pair of 2

Pair of loading ramps designed for the safe loading of light loads (motorcycles, wheelbarrows, lawnmowers, ATVs, or carts). Made of aluminum, they are lightweight, making them easy to transport and store. Anti-slip surface for increased safety during loading and unloading. Individual capacity from 250 to 1250 kg.

Customs code

7616999000

EAN

3321360055309

Color : Grey

Material : Aluminium

Specifications :

- Foldable and lightweight for easy storage.
- Non-slip ramps.
- Can support up to 1000 kg of load (2 × 250 kg).
