

Technical sheet

TP106BO7016

Rounded-top post Ø 60 H 1000 (1200)

Flexible shape-memory post designed to limit vehicle damage in the event of an impact. It deforms upon impact and returns to its original shape without damaging the anchoring. Resistant to tearing, tensile stress and breakage. Can be directly embedded into the ground or installed in an anchoring box for removable installation (box optional).

Customs code

3926909790

EAN

3321360120816

Specifications :

- Durable and robust.
- It resists tearing, tensile stress and breakage while complying with accessibility requirements.
- Its shape-memory flexibility helps prevent vehicle damage in the event of an impact.
